ADMIRAL DAVIS NOT THE FIRST AMERICAN TO LAND SAILORS ON BRITISH SOIL.

LANDED BY ADMIRAL MEADE

YANKEE TARS FOUGHT FIRE AT PORT OF SPAIN, TRINIDAD, MANY YEARS AGO.

Washington, Jan. 25.—President Roosevelt has received a cablegram from the Most Rev. Dr. Enos Nuttall, lord archbishop of the West Indies and chairman of the Kingston relief committee, tendering his thanks for the prompt visit of the American warships under Rear Admiral Davis. The message is as follows:

"We all appreciate deeply American sympathy in our distress and the prompt visit of your men-of-war for our succor. Happily the supply of food available for relief committee is sufficient. After meeting the cost of this, our next great want will be the means for making small houses habitable. All our people are behaving splendidly."

The receipt in this city of the official full text of the correspondence between Rear Admiral Davis and Governor Swettenham of Jamaica, which did not differ from the communications transmitted by the Associated Press last Sunday night, caused the naval officials to again study the situation to see if Admiral Davis had in any way transgressed the bounds of propriety on his visit to Kingston. They not only found a precedent for his landing men from his ships to preserve order, strangely enough in the case of another British island in the West Indies, but also saw nothing in the whole affair to warrant the letter addressed to him by Governor Swettenham. Secretary Metcalf late in the afternoon gave out the following statement bearing on the subject:

"The department has received the full text of the correspondence between Rear Admiral Davis, commanding the squadron of naval vessels which visited Kingston, Jamaica, after the earthquake, and Sir Alexander Swettenham, governor of Jamaica. Requested by the Colonial Secretary.

"From this correspondence it appears that Admiral Davis landed a party of six men for the purpose of guarding and securing the archives of the American consulate and another party of ten men for the purpose of clearing away the wreckage. Later, upon the earnest entreaty of the colonial secretary and the inspector of police, who spoke for the governor (the governor being absent from the city and at King's House, some three miles distant), fifty men were landed under arms from the Indiana to overawe an alleged mutiny at the penitentiary, containing 500 or 600 prisoners. Admiral Davis then proceeded by carriage to visit the governor at King's House and found him living with his family in tents and was accompanied to the city by the governor. That same afternoon, upon the request of the governor, the men were withdrawn from shore and returned to their ships.

"The action of Admiral Davis in landing, under the circumstances, is not without precedent, there being numerous cases to justify it, and as an incident a copy of the report by Rear Admiral R. W. Meade, U. S. N., in landing men at Port of Spain, Trinidad, to suppress a fire and a letter by the governor of the island of Trinidad expressing his gratitude for the action, is shown herewith."

The report of Rear Admiral Meade shows that he landed 225 bluejackets and marines to help extinguish a disastrous fire at Port of Spain, Trinidad, on March 4, 1895. These men were landed before a request for help was made by the British governor, but such request was received by Admiral Meade ten minutes after the landing parties had left the ships. The Americans did gallant work in fighting the fire and Governor Droom of Trinidad sent a letter to Admiral Meade expressing his heartfelt thanks for the assistance rendered by the American bluejackets.

SWETTENHAM'S CAREER ENDED.

Governor of Jamaica Will Lose Position on Account of Blunder.

London, Jan. 25.—The colonial office has received several telegrams from Sir Alexander Swettenham, the governor of Jamaica, explaining the incident with Rear Admiral Davis, but not one is of such a character that the authorities are prepared to give it to the public.

The foreign office says it had no further communication from Washington and that with the receipt of President Roosevelt's telegram through Assistant Secretary Bacon,

the international side of the question is regarded as settled. At the same time, it is possible, however, when Governor Swettenham's explanation is received in full there will be further communication with the government of the United States. The Associated Press gained the general impression at the government office that Governor Swettenham's career is at an end.

The colonial office gave out two reports received from the governor on conditions in Jamaica. Sir Alexander says that up to date 500 bodies have been buried, in addition to a number of remains that could not be distinguished or identified. The governor estimates that 200 bodies are still buried in the ruins and that it probably will take twelve months to remove all the debris.

The main thoroughfares of Kingston have been cleared, street car lines are in operation and the people are living in outhouses and less damaged buildings. There are 3,000 homeless persons in temporary shelters erected in the gardens, on the public squares and at the race course. The number of homeless ones is being decreased, as work is plentiful and many persons have been given passage out of the city. There are still 400 patients in the hospitals and many of the injured are being treated in their homes by relatives and friends.

Slight earthquake shocks continue, but the weather remains fine.

Foreign Secretary Grey sent the following reply to Mr. Bacon through Esme Howard, the charge d'affaires of the British embassy at Washington:

"Please express to the assistant secretary of state my thanks for his message. The friendly attitude of the president and the American government are warmly appreciated by his majesty's government."

HEAVY LOSS OF LIFE IN RUSSIA.

Severe Blizzard Also Causes Great Suffering.

St. Petersburg, Jan. 25.—Reports of heavy loss of life and great suffering are arriving from the Akmoinsk steppes, Central Russia, with which communication was interrupted. During the recent blizzard the temperature fell to 47 degrees below zero. Fifteen bodies were recovered in one day in the vicinity of the village of Akomil. Thousands of cattle perished.

The winter grain crop is killed in Central Russia, where the snowfall was light.

COMMISSION ENJOINED

RAILROADS STOP ENFORCEMENT OF COMMODITY RATES IN MINNESOTA.

St. Paul, Jan. 25.—The ten railroads operating in Minnesota have secured from Judge Lochren in the United States circuit court a temporary injunction restraining the Minnesota railroad and warehouse commission from enforcing the schedule of commodity rates, which the commission ordered some time ago to become effective Jan. 25.

The order is made in connection with an order to Ira B. Mills, Charles F. Staples and William E. Young, as members of the railroad and warehouse commission, to show cause on Feb. 13 why a temporary injunction should not issue pending the final determination of the suits filed to enjoin the enforcement of the new rates.

The ten railroads filed their complaints and the order to show cause was served on the members of the railroad and warehouse commission.

The complaining roads allege that these proposed commodity rates practically amount to confiscation and are much lower than the rates prevailing in Iowa, Wisconsin, Missouri, Nebraska and Kansas, notwithstanding the fact that the actual cost to the railroads for such service is higher in Minnesota than in any of these states. It is alleged that the cost of fuel in Minnesota is higher than in these states and that climatic conditions here in the winter are such as to make railroad operation difficult and expensive.

IN BATTLE WITH INDIANS.

Twenty Mexicans Killed and Many Wounded.

El Paso, Tex., Jan. 25.—Reports have been received here of a battle between Yaqui Indians and Mexican troops, which occurred Wednesday in the mountain district southeast of Guaymas, state of Sonora, Mexico, in the section in which is located the station of Lencho, which was raided and destroyed by the Yaquis in December last.

The Mexican troops have been hunting the Yaquis since the Lencho incident and have had frequent skirmishes with them but not until Wednesday were they able to force an engagement with any considerable force. In this fight twenty Mexicans were killed and a number wounded. The Yaquis were defeated with considerable loss.

FIVE JURORS CHOSEN

WORK OF SELECTING A JURY TO TRY HARRY THAW DRAGS SLOWLY ON.

ARE NOT ANXIOUS TO SERVE

TALESMEN OFFER ALL SORTS OF EXCUSES IN ORDER TO ESCAPE JURY DUTY.

New York, Jan. 25.—After trying in vain for more than four hours of the morning and afternoon sessions to secure an additional juror to try Harry K. Thaw for killing Stanford White and just when counsel and spectators and even the defendant himself were drowsy from the monotony of the proceedings, there came a sudden change in the tide, and within the last three-quarters of an hour three new jurors were accepted and sworn in. When court adjourned for the day five jurors had been accepted.

Twenty-three talesmen had been examined without success when the unexpected happened and two talesmen in succession proved acceptable to both District Attorney Jerome, representing the people, and the defendant's attorneys. Then followed the drawing of five more talesmen who were excused for one reason or another. Henry C. Harney, a piano dealer, about fifty-five years of age, was the thirty-fifth talesman to be called and as he had never formed an opinion in the case and had read but little about it in the papers he was quickly accepted.

The other jurors chosen the second day were George Pfaff, thirty-four years of age, a dealer in machinists' supplies, and Arthur S. Campbell, forty-two years of age, a superintendent of telegraph and telephone construction. The two jurors selected the first day of the trial were Deming B. Smith, a retired manufacturer, who will serve as foreman, and Charles H. Feecke, a shipping agent. Each of the jurors is married and has a family.

Offer All Sorts of Excuses.

The tedious manner in which the selection of jurors proceeded makes it difficult to predict just when the trial panel of twelve will finally be filled. The order of the court that the jury must be kept under the care of bailiffs had the apparent effect of making many of the talesmen reluctant to serve. Various excuses were offered, one man declaring that to be locked up for two months would so wreck his nerves as to make a calm consideration of the case an impossibility. He was excused.

Fifty talesmen have been examined so far. If the ratio continues it will require two or three days yet to complete the jury. There was a feeling after the adjournment of court at night that both sides would try to facilitate matters as much as possible. Of the thirty peremptory challenges each allowed the prosecution and the defense the former has used eight and the latter six. The defense seemed willing to accept any talesmen who made reasonable answers to the questions propounded by the district attorney.

The fact that Thaw's attorneys asked several of the talesmen if they had any prejudice against any particular line or character of defense was taken by many to indicate that the defense may be either the so-called "unwritten law" or emotional insanity, or a combination of both. Thaw's attorneys again offered no objection, whatever, to the district attorney's questions as to whether or not the proposed jurors would be guided by the actual law as laid down by the court to the exclusion of any fanciful law they might themselves import into the case. Each of the accepted jurors promised to abide by the interpretation of the court.

Minnesota Masons Elect Officers.

St. Paul, Jan. 25.—The annual meeting of the State Grand Lodge of Masons closed with the election of officers and reports of committees. The secretary's report showed that the membership in the 245 lodges in the state is 22,104. The election of officers is as follows: Grand master, Gustaf Widell, Mankato; deputy grand master, W. P. Roberts, Minneapolis; senior grand warden, E. P. Swan, Stewart; junior grand warden, S. L. Fraser, Duluth; grand treasurer, B. W. Knowlton, Minneapolis; grand secretary, Thomas Montgomery, St. Paul.

Two Men Fatally Scalded.

Terre Haute, Ind., Jan. 25.—Lucius Haney and C. T. Miller, engineer and fireman, while making repairs on a battery of boilers at the plant of the Mutual Heating company, were caught in a pit which suddenly filled with scalding water from the boilers. They were fatally injured.

NOTED MERCHANT KILLED.

William Whiteley of London Shot by a Youth.

London, Jan. 25.—A dramatic tragedy startled London when William Whiteley, one of the most unique and at the same time one of the most prominent figures in the business world, was shot dead in his store by a youth claiming to be his son. The assassin then attempted to blow out his brains.

The name of Whiteley has become a household word in England owing to the enormous department store in London run by a company of which Mr. Whiteley was president and which was the pioneer in such enterprises.

The crime occurred shortly after midday. An unknown young man was accorred an interview with Mr. Whiteley in the latter's private office, where the two remained closeted for a few moments. As Mr. Whiteley emerged from his office it was observed that the young man was following and importuning him, while Mr. Whiteley was waving his visitor off and threatening to call the police. Suddenly the young man whipped out a revolver and fired two shots point blank at Mr. Whiteley. The bullets lodged in Mr. Whiteley's head and he fell dead. Before the assassin could be secured he turned his weapon upon himself and inflicted what is believed to be a mortal wound. At a late hour he was very low.

The personality of the assassin and the motives for the crime are enveloped in mystery. He gave the name of Cecil Whiteley, but relatives of William Whiteley disclaim all knowledge of him. The police are of the opinion that the motive for the crime, when discovered, will show that there were present none of the elements of revenge for personal injury but rather that the attack upon Mr. Whiteley was a result of a fancied grievance.

The following penciled statement was found on Mr. Whiteley's assailant:

"To all whom it may concern—William Whiteley is my father. This two-fold tragedy is due to his refusal of a request which is perfectly reasonable.—R. I. P."

There was only a small sum of money in the man's pockets, and other indications that he had come to the end of his resources. This suggests that the crime may have been the outcome of the man's poverty.

CHARGES AGAINST BAILEY.

Considered at Joint Session of Texas Legislature.

Austin, Tex., Jan. 25.—The special committee appointed by the two branches of the state legislature to investigate charges preferred against United States Senator Joseph W. Bailey, met in joint session. The session was for the greater part executive. While the proceedings were not made public, it is believed that the additional charges preferred on Wednesday by Representative Cocke, wherein it is charged that Senator

Bailey used his official position to manipulate land deals in Indian Territory to his private gain, were considered. Because of the grave character of the charges involving a possible violation of a federal statute the committee has decided to limit the range of the inquiry until more definite information can be secured.

The committee after a lengthy debate decided that Senator Bailey would not be required to appear before the committee until all the evidence was submitted, inasmuch as he was on the defensive. With this understanding the committee will proceed to examine witnesses.

TALKS ABOUT PANAMA CANAL.

Theodore P. Shonts Says Active Construction Has Begun.

Kansas City, Mo., Jan. 25.—Theodore P. Shonts, who has resigned the chairmanship of the Isthmian canal commission, was the guest of honor here at the monthly dinner of the Knife and Fork club of Kansas City. In an illustrated address, he gave a record of the work done to date on the Panama canal.

"The creative period," declared Mr. Shonts, "has come to an end and the period of active construction has begun. As to the manner in which the creative task has been performed we are content to let the facts speak for themselves."

In closing Mr. Shonts quoted as follows from President Roosevelt's message written after the chief executive returned from the Isthmus.

"The wisdom of the canal management has been shown in nothing more clearly than in the way in which the foundations have been laid."

SHOWS SIGNS OF MODERATING.

But Cold Weather Still Prevails in Europe.

London, Jan. 25.—The extreme cold weather which has prevailed over Europe for the past few days shows signs of moderating, but heavy snow falls continue in Turkey, Greece, Crete and Asia Minor. The reassembling of the Serbian parliament had to be postponed because of the impossibility, owing to the deep snow, of the deputies reaching Belgrade.

In St. Petersburg and Northern Russia the change to milder weather conditions has been accompanied by a fierce gale, which has wrought considerable damage. In Southern Russia, however, the severity of the storm has not abated and according to a dispatch from Odessa the blizzard has brought about the deaths of sixty-seven persons.

A dispatch from Novorossysk, on the Black sea, says an unknown English steamer has been driven ashore by the violent northeasterly gale.

Spanish Cabinet Resigns.

Madrid, Jan. 25.—The cabinet has resigned as a result of dissensions between the Liberals and the Radicals over the law of associations. King Alfonso is consulting with the political leaders with regard to the formation of a new ministry.

IMPRISONMENT for debt as a law still exists in New York and Gov. Hughes proposes to have it repealed. If all the laws that are dead letters could be wiped off the statute books it would be a good thing for the country.

THE sheriffs of the state are in favor of having the hangings take place at the state's prison. The people of the state have been in favor of the same thing for some time and it is hoped the legislature will pass a law to that effect.

IF THE wishes of a Minnesota legislator are regarded favorably petit and grand jurors will draw \$3 per day and mileage in the future instead of \$2. A bill has been introduced to that effect and the professional jurymen are hoping it will become a law.

THE North Dakota legislature is thinking seriously of abolishing the office of state oil inspector and turning the work over to the pure food department. It is pointed out that the food inspector has better facilities for a scientific inspection and could better protect the state from poor oils than possible under the present system. The present system of state oil inspection is a good deal of a farce.

An exchange intimates that the very best curfew ordinance is that one adopted in the family, where the old man acts as mayor, city council, night watch and calaboose keeper, and where fine and punishment go together and the hickory gad may be used occasionally and fines are not suspended, but promptly executed; where they don't bother so much about passing a lot of ordinances as they do in enforcing these already on the records.

THE small boys of this state will have to get busy with their fathers if they expect to enjoy the Fourth of July in the good old way in the future, and have them implore their members of the legislature to kill the bill that has been introduced for a "safe and sane Fourth." The bill, if passed, shuts out everything but four inch fire crackers, and the toy pistol which is the kids' delight and the family doctor's spending money is a thing of the past.

THE first assistant postmaster general appreciates the fact that the employees of Uncle Sam in the thousands of postoffices in the United States are underpaid and accordingly recommends in his annual report that the pay of clerks and letter carriers be increased to meet the increased expense of living. The system of increase which he suggests will require \$3,000,000 for officers and clerks of postoffices, which does not include postmasters or their deputies, and \$2,000,000 for letter carriers.

SO DECEPTIVE.

Many Brainerd People Fail to Realize The Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Nine times out of ten it comes from the kidneys.

That's why Doan's Kidney Pills cure it.

Cures every kidney ill from backache to diabetes.

Here's a Brainerd case to prove it:

Ed. Oechaine, of 601 Fifth St. S., Brainerd, Minn., says: "Hard work brought on a disturbance of the kidney action and I suffered considerable backache at times. This condition led me to go to H. P. Dunn & Co.'s drug store where Doan's Kidney Pills were advertised and get a box which I used according to directions. The backache was quickly banished and the kidney secretions were regulated. I gladly recommend such a valuable remedy to people of Brainerd."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

A Poor Relation

Not since the days of Joseph Jefferson's immortal "Rip Van Winkle" has there been a greater success in the dramatic world than "A Poor Relation," unless it be perhaps "Mrs. Wiggs of the Cabbage Patch," and for the first time in the annals of theatrical history have managers signed contracts for actors to play a role for life. Mr. Lee D. Ellsworth, who plays the part of Noah Vale in "A Poor Relation" has signed a contract with the managers of the piece, Messrs. Davis and Eugene, to play that part during his lifetime. Also Mrs. Madge Carr Cook who plays the part of Mrs. Wiggs in the play of that name signed a similar contract with Leibler and company. "A Poor Relation" comes to the opera house, Monday Jan. 28.

HELL A STATE, HEAVEN A PLACE

So Declared Revivalist Dr. Riley
In a Sermon on "Heaven
And Hell"

SCRIPTURES SAY BOTH REAL

Declares Eminent Speaker—
"The Whole Family for God"
Tonight's Theme

But very few seats were vacant last evening at the tabernacle when Dr. Riley rose to speak on his much discussed theme "Heaven and Hell," and many who had not thought about either place for many a long day went home with a mind full of the subject.

The evangelist based his remarks on the text: "The Wicked Shall be Turned Into Hell, but the Righteous Shall Pass Into Eternal Life."

Said Dr. Riley in part: "One woman told me that she preferred going to hell with her unbelieving husband than to go to heaven without him. Evidently she had thought but very little of the grave subject. While it looks like a very noble example of wifely devotion, yet she had never given any attention to what the scriptures generally and Jesus says upon the matter. In the other world, marriage relationship and the other filial loves, are forgotten, and what benefit would she be to her husband in such a place. People are mistaken if they think that hell is a place for companionship. In that place people part with companionship and other things which belong to this life, and become wandering stars."

"Heaven, according to the scriptures, is a place; hell is a condition or state. Every prophet, patriarch, apostle and writer in the Bible together with Jesus so spoke of it. The Nazarene said, 'In my Father's house are many mansions. I go to prepare a place for you.' In the Revelation of John, the very dimensions of the city are told, while other things are also mentioned concerning it. No greater question can possibly engage every honest thinker who believes in another life appended to this. If Christ affirmed the fact of a great future beyond with heaven and hell, and destiny is fixed upon character, is it vitally important that men should ask themselves, 'Where shall I spend eternity?'"

"Hell, in my judgment, as taught in the Bible is a state. A place of anguish, torment, weeping, wailing and gnashing of teeth; a place where memory stings with eternal regret. It is utter insanity to think that a man can go to heaven who has hell in his heart and character here. There is nothing in reason or revelation to show that a man whose soul is already damned in this life, is saved when he passes into the next. If in this world we find human society drawing a broad line of demarcation between the virtuous and the vicious, or establishing a system of rewards and punishments based on morals, and found this necessary, it is not harder for me to believe that God who is just must do the same? No man can prove to me from scripture that the punishment in the next world is regenerative. 'A great gulf is fixed,' said Christ. When I read that 'He who believes not shall be damned,' as Jesus said, I believe it."

"I know that people generally think that any clergyman who gets before an audience and speaks thus upon hell, is generally supposed to be uneducated, but the best scholars of both Hebrew and Greek have said the gospel is explicit in their teaching of a reward for the good and that there is eternal punishment for the bad."

CUYUNA RANGE TALK

Work of exploration on the Cuyuna range continues with satisfactory results in some cases, according to accounts, says the Duluth Tribune. It is reported that quite a large body of ore has been shown up by Cuyler Adams in 34, 47-26, (Spencer) and it is also stated that E. J. Longyer has purchased in the neighborhood of 3,500 acres in the northeast part of 50-23, northeast of Sandy lake.

Several others are reported to have bought land in that vicinity, among them the Central Land & Timber company, and H. J. Grannis, of Duluth, who has several leases in 50-25, (Hebron) and 49-23 (Shamrock). There is a drill now working in 51-22, on section 16. It is stated that two properties have been closed for at fair prices this month. The Northern Pacific is credited with having purchased the west half of the northeast quarter of 2, 46-28 (near Deerwood) for \$30,000, and the Erick property has been closed for at a substantial figure.

It is reported that a fine showing is being made on section 1, 46-29, (south of Rabbit lake) one hole being several hundred feet in ore. The option price of the property is \$32,000 and it will change hands on the strength of the mineral development.

Betsy Erickson and husband, Sheriff Erickson, have given Carl Neuman an option for a lease on the northwest quarter of the northeast quarter of 6-46-28. The terms of the option as made of record in the register of deeds office show the payment of \$1,000 for a two years option with the privilege of exploration. The lease to be taken under the option provides for a royalty of ten cents per ton of 2,240 pounds of ore. The payment of royalty must begin within two years of the date of the option and must be for not less than 5,000 tons per year the first two years and 10,000 tons per year thereafter and runs for a period of sixty years.

The recorded deed for the Erick property, lot 5 and the southwest quarter of the southwest quarter of 29-47-28, shows a consideration of \$15,000 in hand paid. The acreage of the tract is not specified in the instrument.

Fred was at Devils Lake when
When Last Heard From and
Hoped to Get Through

F. H. Gruenhagen, of the Slipp-Gruenhagen Co., started from here nearly two weeks ago with a car containing a heating plant for the public school building at Upton, N. D. He stopped at the terminal points along the way to keep in touch with the car and keep it moving. Several times he hunted it up where it had been set out and induced the railroad men to put it on a train and hurry it forward as the town is waiting anxiously for their new building to be completed. When last heard from Fred and the car were at Devils Lake. On the way there the train, a double header, had to stop twenty miles this side of Devils Lake and run in for coal, leaving the train, and then going back after it. He wrote from Devils Lake that he hoped to leave there in a few hours and the members of the firm here hope he has already arrived at Upton. Dick Huston, the firm's plumber, has been waiting there for some weeks to do the work.

SENATOR ALGER DEAD

NOTED MICHIGAN MAN PASSED
AWAY UNEXPECTEDLY AT
WASHINGTON.

HELD MANY HIGH POSITIONS

SERVED AS SECRETARY OF WAR
UNDER THE LATE PRESIDENT
McKINLEY.

Washington, Jan. 25.—United States Senator Russell A. Alger of Michigan died suddenly at his home in this city at 8:45 o'clock a. m. There were practically no premonitory symptoms that the end was near. At 8:30 the senator had a pleasant chat with Mrs. Alger in her room and then went down stairs. A few minutes later the senator suffered a recurrence of the heart trouble from which he had suffered for a long time and death came quickly. The end was quiet and apparently without pain.

The senator had not been feeling well for several days. Tuesday night he had expected to attend a dinner at the home of Representative William Alden Smith, but at the last moment word came from him that he would not be able to come. His physician had advised him against going out that night because of his not feeling very well. Mr. Alger had suffered for years from chronic valvular disease of the heart.

Senator Alger was in the senate chamber Tuesday afternoon, where he stayed throughout most of the entire session listening to the discussion of the Brownsville affair. About 4 o'clock he retired to the cloakroom, where he sat with Colonel Ransdell, sergeant-at-arms of the senate, and Senator Warner of Missouri, telling war stories.

Senator Alger is survived by his widow and five children.

Russell Alexander Alger was born in Medina county, O., Feb. 27, 1836. He served as an officer of volunteers in the Civil war, retiring with the rank of brevet major general; he was once commander-in-chief of the G. A. R.; he was once governor of Michigan, secretary of war under President McKinley and at the time of his death was senator from Michigan.

ABOLISHES PENSION AGENCIES.

House Votes to Centralize Payment of Pensions in Washington.

Washington, Jan. 25.—The house voted to abolish all the pension agencies throughout the country, eighteen in number, and centralize the payment of pensions in the city of Washington. This action was taken on the pension appropriation bill after spirited opposition on the part of those having agencies in their states.

By a vote of 58 to 114 an amendment offered by Mr. Dalzell of Pennsylvania, restoring the number of agencies to eighteen, as at present, was defeated and then an amendment offered by Mr. Gardner of Michigan, consolidating all the agencies in one, was adopted without division.

The pension appropriation bill, carrying \$138,000,000 in round numbers, was passed.

A message from the president was read relative to insurance and at 2:30 p. m., out of respect to the memory of the late Senator Alger of Michigan, the house adjourned.

for an Overhauling

Supt. Baker has put the electric light plant in running order but he is not yet satisfied with the condition and will put in additional braces, replace a crooked coupling in the main shaft and make other improvements as rapidly as they can be reached. He states that hereafter the plant will be shut down during the daylight hours of every Sunday and that the plant will then be carefully gone over each week. It is also his intention, as soon as possible, to test out the wiring of the city and make the present power as efficient as possible in the way of delivering light to the consumers.

WORST STORM OF THE SEASON.

Severe Blizzard Raging Throughout the Northwest.

Minneapolis, Jan. 25.—For the past forty-eight hours the worst storm of the season has been raging throughout the Northwest. The situation is worse than it has been any time this winter with regard to fuel and supplies. The Great Northern general office in St. Paul has received appeals for help from North Dakota towns and will try to get five cars of supplies out of Grand Forks at once.

A cold wave is sweeping down from the Canadian Northwest over the Dakotas and Minnesota. The wave will be accompanied by snow. A decided fall in the temperature will occur.

The present weather conditions existing in the Dakotas, where the temperature has been continually low and the suffering intense, will be greatly augmented by this change for the worse. Towns at present destitute of fuel may be at the mercy of the elements.

COMPETITION DESTROYED.

Merger of Harriman Lines Said to Have Been the Cause.

Portland, Ore., Jan. 25.—Portland and Salem merchants and manufacturers differed only in their phraseology in testifying before Franklin K. Lane, sitting as the interstate commerce commission in this city, that common ownership of the Oregon Railroad and Navigation company, the Union Pacific, the Oregon Short Line and the Southern Pacific had destroyed competition between the Union Pacific's rail and water lines and the Southern Pacific between Portland and the East.

Before the ownership was merged, the Portland men testified, their business had been actively solicited by agents of both these lines, and there was competition between the Oregon Railroad and Navigation company's water line to San Francisco and the Southern Pacific railroad. At present, they declared, they were not so likely to ship by any specific "Harriman" lines.

CATARRH GROWING LESS.

Due to the Use of Hyomei Cures Without Stomach Dosing

Inquiry at the local drug stores shows that the sale of remedies for catarrh has decreased very much in the last year. Some medicines which were formerly bought a gross at a time are now purchased in half dozen lots, and are rarely called for.

There is one notable exception to this decrease in sale, and that is Hyomei. This remedy is, in fact, responsible for the decrease in sale of catarrh medicines, as it has made so many cures of catarrh troubles that naturally there is much less demand for remedies for this disease.

People who who have been trying different medicines for catarrh during many years were induced to begin the use of Hyomei by H. P. Dunn & Co.'s guarantee that the remedy would cost nothing unless cured. Much to their surprise, they found that Hyomei did what it claimed (if it did not H. P. Dunn & Co. could not sell it under this guarantee) and they soon became ardent advocates of the use of Hyomei.

There is no disagreeable stomach dosing with Hyomei; it is used by being breathed through a neat pocket inhaler.

Woman's Watchword Is Modesty.

Whatever threatens woman's delicate sense of modesty, frightens her. For this reason many a woman permits disease of the delicate womanly organs to become aggravated because she cannot bring herself to submit to the ordeal of unpleasant questioning, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter have been led to do so by the escape thus offered from a treatment repugnant to modesty.

Any sick woman may write to Dr. R. V. Pierce, Buffalo, N. Y., in perfect confidence; all letters of consultation being treated as strictly private and sacredly confidential, and all answers being sent in plain envelopes with no advertising or other printing upon them. Such consultation costs you nothing whether you take treatment from Dr. Pierce or not.

Dr. Pierce's Favorite Prescription has been long hailed as a "God-send to women." It makes weak women strong and sick women well. It enables women suffering from "female weakness," prolapsed uteri, retroversion, anteversion, and other displacements of the organs distinctly feminine, to cure themselves right in the privacy of their homes. Pelvic catarrhal drains, painful or irregular periods, backache, frequent headaches, weak nerves, dragging-down pain or distress in the lower abdominal, or pelvic, region, gnawing sensation in stomach, dizziness, or faint spells, and kindred conditions and symptoms are cured by Dr. Pierce's Favorite Prescription. It is not a secret or patent medicine, against the use of which most people of intelligence naturally object, but is, in fact, the "Favorite Prescription" of a regularly educated and experienced physician in the treatment of woman's peculiar ailments and who is not afraid to publish all its ingredients, as he does, on its bottle-wrapper, attesting the correctness of the same under oath.

"Favorite Prescription" is the one medicine for woman's delicate ailments which contains neither alcohol nor harmful, habit-forming drugs, being a pure glyceric extract of curative principles found in our most valuable native medicinal roots, as attested by many of the most eminent medical writers and teachers of all the several schools of practice.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dress-makers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequal-

ed and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

You can't afford to accept a secret nostrum as a substitute for this PROVEN REMEDY OF KNOWN COMPOSITION.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections; as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood-cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and if you come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

REPLY FROM JOHNSON

HOUSE RECEIVES THE GOVERNOR'S ANSWER TO THE GATES RESOLUTION.

COUNTY OPTION HELD TO BE A MORAL AND NOT A POLITICAL QUESTION.

St. Paul, Jan. 25.—Governor Johnson has answered the Gates resolution asking for a special message on county option by refusing to commit himself on the question and saying that if the legislators have not an opinion on the subject the state ought to adopt the initiative and referendum. Furthermore, he says, county option is a "moral and not a political question" and therefore should be settled by the representatives of the people.

He adds that "it would be manifestly improper and indelicate for me to discuss this question in further detail at this time," on account of a measure pending in the senate which covers the question. He says that should legislation be enacted on this line and come to him for approval, "the honest judgment of the legislature would certainly have much weight."

The governor did not touch upon county option in his regular message and the house passed a resolution, offered by G. A. Gates of Kenyon, asking for a special message. The resolution was intended to place the governor on record, as it was alleged during the recent campaign that he catered to the favor of both sides.

When the message was read in the house there was considerable laughter.

State to Pay for Junkets.

The senate resolution providing that the state shall pay the expenses of junkets to state institutions was the cause of considerable debate in the house. The resolution was reported to the house and passed with only four votes against it.

After the vote had been taken S. D. Peterson of New Ulm moved a reconsideration and W. A. Nolan of Grand Meadow urged the house to avoid the squandering of large sums of money. The motion to reconsider was lost with sixty votes against it and forty in favor.

O. N. Thundale of Harmony does not want the sale of any more mineral cases just at present. He thinks that by holding the mineral lands the state may be able to get a higher price for them than under the present contracts. Mr. Thundale introduced a bill in the house prohibiting the state auditor from issuing, renewing or delivering any leases of mineral lands until further orders from the legislature.

There will be no advantage in raising hens that lay small eggs, if a bill introduced in the house by C. M. Benliken of Morgan is adopted. Eggs must be sold by weight.

A bill for a distance tariff for all railroads in the state, to be prepared and put in force by the state railroad and warehouse commission, was introduced by Senator S. D. Works of Mankato. The bill provides that in case of an appeal to the courts the classification and rate established by the commission shall remain in force until overruled by the courts.

Inheritance Tax Measure.

Two inheritance tax bills were introduced in the senate. The one introduced by Senator Ole O. Canestorp of Ellsworth Lake would increase the amount of the tax on estates valued at more than \$500,000 to 10 per cent and give the county in which the decedent lived 20 per cent of the tax. The bill of Senator S. D. Works of Mankato would not increase the amount of the tax, but provides that the counties shall receive the entire amount.

A bill providing for the closing of saloons on Christmas and Good Friday and another one to regulate the number of saloon licenses to be granted in cities of the fourth class were introduced in the senate by Senator S. A. Nolan of Lanesboro. The first amends the law requiring all saloons to be closed between 11 p. m. and 5 a. m. on general, special or primary election days and all Sundays by adding Christmas day and Good Friday to the list. The other bill provides that in cities of the fourth class and in villages no more than one license for each 500 inhabitants or major portion thereof shall be granted.

Senator J. T. Elwell introduced a bill providing for a constitutional amendment to the road and bridge fund provision in the constitution removing the limit of tax that shall be levied by the state for this fund, and providing that the state may pay one-half of the cost of such work in any county.

A bill fixing a uniform method of buying and selling grain and to prevent combinations to control the price of grain was introduced in the senate by Senator L. O. Thorpe of Willmar.

Life insurance matters came in for their full share of the attention of the senators, bills being introduced relating to various phases of the business, including regulations of the rights and duties of insurance agents, establishing standard forms of policies and prescribing the items to be included in the annual reports of the companies.

UNCOOKED MEAT IS VERY DANGEROUS

Fearful Suffering Caused by Eggs of Parasite Which It May Contain—Statement by a Priest.

Cincinnati, O., Jan. 24.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape-worms by his preparations.

During the early part of Cooper's stay in Cincinnati individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size."

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble so universal is caused by these parasites."

"Individuals may have them for years and not be aware of the reason for the continued ill-health but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality."

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This gruesome prophecy has been

amply verified, for not only hundreds but thousands of Cincinnati people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country, verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pains in the lower part of my back, and would have to sit down."

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs."

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about ninety feet in length left my system. 'I am very thankful for this great relief, and now I know what has been the cause of all my sufferings.'"

This story of Father Arnolis is a fair sample of the experience of an astonishing number of Cincinnati people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

CHILD LABOR STATISTICS.

Census Bureau Issues Bulletin Containing Interesting Figures.

Washington, Jan. 25.—The extent to which child labor is employed in the United States is set forth in a bulletin issued by the census bureau. The statistics presented are for 1900, and relate to the employment of children as breadwinners, of whom 1,750,000 in round numbers, between the ages of ten and fifteen, were so employed. Breadwinners are defined as those earning money regularly by labor, contributing to the family support, or appreciably assisting in mechanical or agricultural industry. By far the most important occupation for children is that of agricultural laborers, the number of children ten to fifteen years old so employed being 1,054,416. About two-thirds of the total number of child breadwinners were employed on the farm and most of these children were members of the farmers' families.

Next in importance comes domestic service or the occupations of servants and waiters or waitresses, in which 38,065 children were employed, most of them being girls.

About one-third of the children employed in gainful occupations were fifteen years of age and more than one-half were fourteen or fifteen years old. The number under fourteen was 796,023, or 45.2 per cent of the total.

Of the total number of child breadwinners 19 to 15 years of age, 72.2 per cent were boys and 27.8 per cent girls.

Almost invariably the percentage of breadwinners is much greater among foreign-born children than among native-born children. The percentage of breadwinners among negro children is much higher than among white children.

BREAKS IN WABASH LEVEE.

Result in Flooding of Bottom Lands and Heavy Damage.

Vincennes, Ind., Jan. 25.—Two breaks in the Wabash levee, one at Mariah Pond, seven miles north of Vincennes, the other four miles north of Emerson, flooded nearly 10,000 acres of rich bottom lands, causing over \$25,000 damage.

The Wabash river is rising at an alarming rate and has reached the 20-foot mark, which is but 3 feet under the record-breaking stage of 1898.

Symptoms of Nerve Disorders

Which Foretell the Approach of Nervous Prostration, Paralysis and Locomotor Ataxia.

Twitching of the nerves and muscles, sensitiveness to light, sound and motion, jerking of the limbs, sleeplessness, headache and indigestion—such are some of the symptoms of exhausted nerves.

Because there is no acute pain people do not always realize the seriousness of nervous diseases. They do not think of the helplessness of body and mind which is the result of neglecting such ailments.

Because of its extraordinary control over diseases of the nerves, Dr. A. W. Chase's Nerve Pills have come to be considered the one great treatment for disorders of this nature.

Not only do they revitalize the wasted nerve cells, but actually form firm flesh and tissue, build up the system and send new vigor and vitality to every organ of the body.

FOOLING THE PEOPLE

Abraham Lincoln said you can fool some people all the time, you can fool all the peoplesome times, but you can not fool all the people all the time.

Bell Coffee

is the coffee that stays by the people all the time. It is sold in moisture and dust proof packages, a special blend of the best South American Mocha and Java and is selected by a special agent of J. H. Bell & Co., from private growth plantations. It is superior to any offered heretofore at a moderate price.

People have found that Bell Coffee is a little better than most coffee at the same price, and while some merchants may refuse to sell it, because they can make more on something else.

People who insist on having Bell Coffee will find that merchants can supply them.

Harry Mitchell's EDITORIAL.

I want to make your clothes. I have the largest tailoring establishment in the world, and my main order department is conducted in such a manner that no matter where you live I can fit you and give as good satisfaction as if you were measured in my Minneapolis store in person. I want you to write me for samples. I want to demonstrate to you that for \$15.00, \$20.00 and \$25.00 I can make you a better suit or overcoat than your local tailor would charge you \$30.00, \$35.00 and \$40.00 for—the kind that no ready-made store could give you at any price.

Write me today and tell me about the kind of clothes you are thinking of getting. By return mail I'll send you samples and self-measurement blanks. Don't be afraid to ask questions. Remember I absolutely guarantee perfect fit and satisfaction or refund your money; and I pay all express charges, so your clothes cost you no more than if you got them right here in Minneapolis.

Yours truly,
